

JEDITH ALMANDO ISTIAN

08814985909 | Jedithistian@gmail.com | www.linkedin.com/in/jedithistian

Malang Regency, East Java

A Bachelor of Computer Science graduate from Bina Nusantara University and a fresh graduate with a strong interest in Data Engineering and Web Development. Skilled in Data Warehouse, SQL, AWS, Informatica, ETL development, and web development using PHP, Laravel, and Bootstrap. A proactive, analytical, and solution-oriented individual with a strong passion for continuous learning and creating efficient, impactful digital solutions. I thrive in fast-paced and dynamic environments and possess strong critical thinking, communication, and problem-solving skills.

Education Level

Universitas Bina Nusantara - Malang, Jawa Timur

Aug 2021 - Sep 2025

Bachelor Computer Science, 3.76/4.00

- Coursework: Database Systems, Data Management, Cloud Computing, Software Engineering, and Artificial Intelligence

Professional Experience

PT. Bumi Amarta Teknologi Mandiri - Jakarta, Indonesia

Feb 2024 - Feb 2025

Internship

- Data Warehouse Migration (Client Project: PT Bank BTPN Syariah) | Mar – Jul 2024
 - Migrated 359 Stored Procedures from SQL Server to AWS Redshift using AWS Schema Conversion Tool (AWS SCT) and automated scripts.
 - Conducted System Integration Testing (SIT) for 120 Stored Procedures and User Acceptance Testing (UAT) for 242 Stored Procedures to ensure data consistency and accuracy.
 - Designed and implemented AWS Step Functions workflows for orchestrating automated data pipelines, improving workflow management.
 - Performed 53 data reconciliations using Redshift and SQL Server to validate data integrity after migration.
- Fund Transfer Pricing (Client Project: Eximbank – ARRA Project) | Agust - Sept 2024
 - Supported ETL process using SQL Server Integration Services and SQL Server Management Studio.
 - Built and maintained ETL jobs for Extract, Transform, Load processes supporting financial reporting.
 - Prepared technical documentation to support ongoing data pipeline operations.
- Data Quality new Master Data Management Data (Bank Central Asia) | Sept 2024 - Feb 2025
 - Validated and cleansed financial data using Informatica Tools to improve data quality and consistency.
 - Created data migration jobs from multiple sources into the database using Informatica.
 - Converted SQL queries into Informatica mappings for Data Quality validation processes.
 - Conducted data reconciliation between Development and Production environments to ensure result consistency.
 - Developed reusable mapplets to improve modularity and efficiency of ETL pipelines.
 - Performed debugging and error fixes during validation phase and generated activity logs using Stored Procedures.
 - Prepared deployment objects (jobs, workflows, mappings) for Production and built workflows for data matching processes.

Professional Development & Activities

School Administration Web Application

Mar 2025 - Aug 2025

Undergraduate Thesis

- Designed and implemented a web-based school administration system at SMP TK Budi Mulia Gresik using Laravel, Bootstrap, and MySQL with the Database System Development Life Cycle approach.

Hackathon organized by School of Computer Science BINUS - Jakarta

Aug 2023 - Oct 2023

Partisipant

- We have developed a website based on a Chatbot application with a mental health theme. This website offers an innovative solution for discussing and sharing feelings related to mental health, incorporating a safe space without stigma. Within the website, we have implemented a chatbot as the main feature and included simple psychological tests.

Big Data Projects

Feb 2023 - Jun 2023

Academic Projects

- Best data visualization project in class regarding "Indonesian Natural Disaster" analysis. I was the leader of 2 other members to create this project, where this project was composed of several steps such as data collection, data processing, data analysis, and creating visualizations.

Hospital Database Website Project

Jul 2023 - Dec 2023

Academic Projects

- This is a website that provides clinic schedules, local resident monitoring, and explanations of various diseases. It also includes an admin role that can add or modify schedule data, monitoring records, and health information. The website was developed using Laravel and Bootstrap, and is connected to a database.

Cloud Computing Project

Feb 2023 - Jun 2023

Academic Projects

- Successfully developed an AWS-based project and became one of two students in the class to complete the challenge project. Built a website with a connected database using AWS Relational Database Service (RDS).

ICP Asia Jakarta Regional Contest

Oct 2021

Participant

- Participated in the competitive programming competition at the ICPC event.
- Accomplishments Successfully solved 3 problems.

Skills, Certificates, and Organisational Experience

- **Campaign Volunteer Group Leader by TFI Binus@Malang** (2023): provide education for Indonesian students about the negative impacts of drug use, types of drugs, ways to prevent it and explanation of the laws and regulations in force in Indonesia regarding narcotics abuse. This activity was carried out at SMPK Kosayu 1 Malang
- **Security Staff – Malam Keakraban SYP B2027** (2023): Served as part of the security division responsible for maintaining order and ensuring participant safety during the event.
- **Bina Nusantara Computer Club** (2022): Create a Promotional catalog to help small businesses.
- **Society Buddy (Bina Nusantara University)** (2022): Creating an event agenda and providing sex education to elementary school students at Saptorenggo.
- **Hard Skills:** AWS, SSIS, SSMS, Informatica, Talend, Pentaho, GCP, SQL, Python, C, PostgreSQL, PHP, Bootstrap, Laravel, MySQL
- **Soft Skills:** Critical Thinking, Problem Solving, Adaptability, Teamwork, Initiative, Leadership
- **Interest:** Web Development, Data Analysis, Data Engineering, Community Involvement
- **Certificate** (2023): Introduction to cloud - Cognitive Class
- **Certificate** (2023): Web Pentest & Bug Bounty Hunting - Jadi Hacker
- **Certificate** (2023): R Fundamental for Data Science - DQLab
- **Certificate** (2023): SQL (Intermediate) - HackerRank
- **Certificate** (2023): Intro to Machine Learning - Kaggle
